(posted January 31, 2024)

Rule Clarification Questions Received between 5:01pm on January 23 and 5:00pm on January 30 (question period 3)

Rule Clarification Question 3.1: Rule Clarification One further problem clarification. Where does the page numbering start in terms of the 25 pages? Does it begin after the title page or at the statement of the issues? If it begins at the statement of issues, should we include roman numeral page numbers for the table of contents and table of authorities?

Committee Response to Problem Clarification Question 3.1:

This question duplicates Rule Clarification Question 2.3, which was addressed last week. The Committee Response to Rule Clarification Question 2.3 addresses the portion of the question specific to the structure of the page numbers for different parts of the brief. To the extent the question was asking about the 25-page word limit, that issue is addressed in the Committee Response to Rule Clarification Question 2.1.
